

HERE WE ARE.

> DRIVEN BY PASSION

NAYAK is Europe's largest independent aircraft line maintenance provider. Our dedication and flexibility for our customers has resulted in collaboration with all major airlines in Europe. This underlines our relevance in the market, results in steady growth, and proves that our business concept works. With over thirty maintenance facilities across Europe, NAYAK offers a full range of line maintenance services for regional jets, narrow-body and wide-body aircraft.

OVER 40 YEARS OF KNOW-HOW ORIGINATED FROM GERMANY

NAYAK Aircraft Service GmbH & Co. KG was founded 1974 as a subsidiary of BAT-Air, for aircraft maintenance. Initially, the main areas of expertise were the Rockwell Commander and Metroliner. Since then, NAYAK has persistently expanded its licenses and business in the field of Line Maintenance, and today NAYAK is proud to offer MRO services at thirty airports across Europe. With German quality roots and passion for Line Maintenance we are here to serve our customers.

We hold the following approvals: EASA Part 145, EASA Part 21, EASA Part 147, EASA Part M, FAA, Aruba, Bermuda, Belarus, Canada, Georgia, Morocco, Mongolia, Qatar, Saudi Arabia, Tunisia, UAE, Ukraine and Zimbabwe. NAYAK is eager to fulfil our customers' needs and can upgrade approval on request.

> EXPANDING OUR HORIZONS

NAYAK is continuously expanding its business operations. Following new LM stations at MMX, PRG and LIS, our latest expansion is a LM station at Istanbul Atatürk Airport (IST). The station opened in May 2016 and is managed by our station manager Haluk Sekeroz. NAYAK currently offers Line Maintenance at thirty service stations and we are always happy to further extend our scope of services upon request.

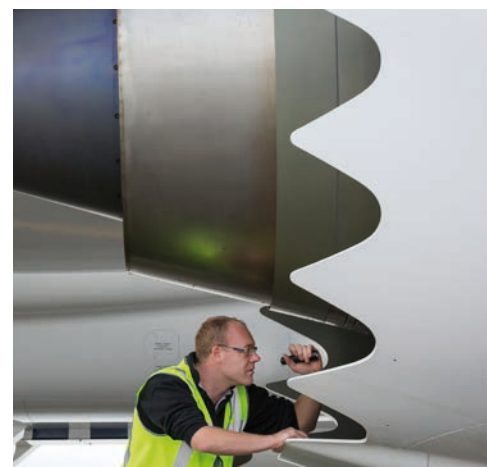

Istanbul (IST), Turkey
> A320, A330, A340-200/300, B777-200/300, B787-800/900

WIDE-BODY MAINTENANCE

Traditionally an expert in regional jets and narrow-body aircraft, in recent years NAYAK has expanded its focus to also include wide-body aircrafts: A330, B767, B777, B787 and A340. NAYAK is continuously running training courses to ensure it has sufficient skilled personnel to meet new requests. NAYAK keeps focusing on expanding our scope and on increasing our number of maintenance repair stations.

Wherever you need us:

> HERE WE ARE.

'The support you expect!'

Airline Technical Support provides technical support in all layers of your company. Our three key areas;

- Recruitment and temporary labour services, flexible and multiple employable all over the world.
- EASA Part 145 approved line maintenance services.
- Technical EASA based training e.g. Aircraft type technical refresh (AD's SB's), EWIS, Fuel Tanks Safety, Human Factors, Easa Part 154, Cold weather, Incoming goods, Easa Form-1 training.
